

Store at mortuary temperature, between 5° and 10° C (41° and 50° F) [see USP]. Dispense in a cursed, unholy container. Each *Incisor* capsule contains 20 mg oleoallium thanostaurate hydrochloride, so prepared that an initial dose is released at sunset and the remainder of the medication is released during the night, in the dark.

Dosage: See accompanying prescribing information.

Important: Use safety closures when dispensing this product, unless otherwise directed by a physician or exorcist, or when invited by the purchaser, of his own free will.
